

The background of the entire page is a low-angle, perspective view of a suspension bridge's steel truss structure. The bridge extends from the bottom center towards the top, creating a strong sense of depth. The sky is a vibrant blue with scattered white clouds. The bridge's steel beams are dark, and the overall composition is dynamic and industrial.

**LINE CARD**  
of Products + Services

The Leading Edge Sales team brings together decades of Electrical Industry experience to represent some of the worlds most innovative electrical equipment manufacturers. Our customers are Electric Generators, both Utility and Co-Gen, Transmission and Distribution Utilities and Large Industrial Facilities and their electrical infrastructure. We focus on supporting the Western Canadian market.

## ELECTRICAL INFRASTRUCTURE AND MAINTENANCE

**Trayer Engineering** Manufacturer of maintenance-free, storm hardened distribution switchgear from 15KV to 35KV. Submersible, Padmount, AutoTransfer switches and more.

**WEIDMANN ISO 17025 Certified Lab** for Transformer Oil testing. DGA, Moisture and full Oil Quality Testing services. Labs located in Calgary, AB and throughout North America.

**Insulogix (TM) on-line transformer monitors** for Hydrogen, Moisture, Dielectrics. Online Bushing Monitors.

**inoLECT LLC. Supplier of the inoRAC2, the world's leading Universal Remote Racking System** for Power Circuit Breakers. Keep workers safe by remotely racking all brands and styles of LV and MV CB's.

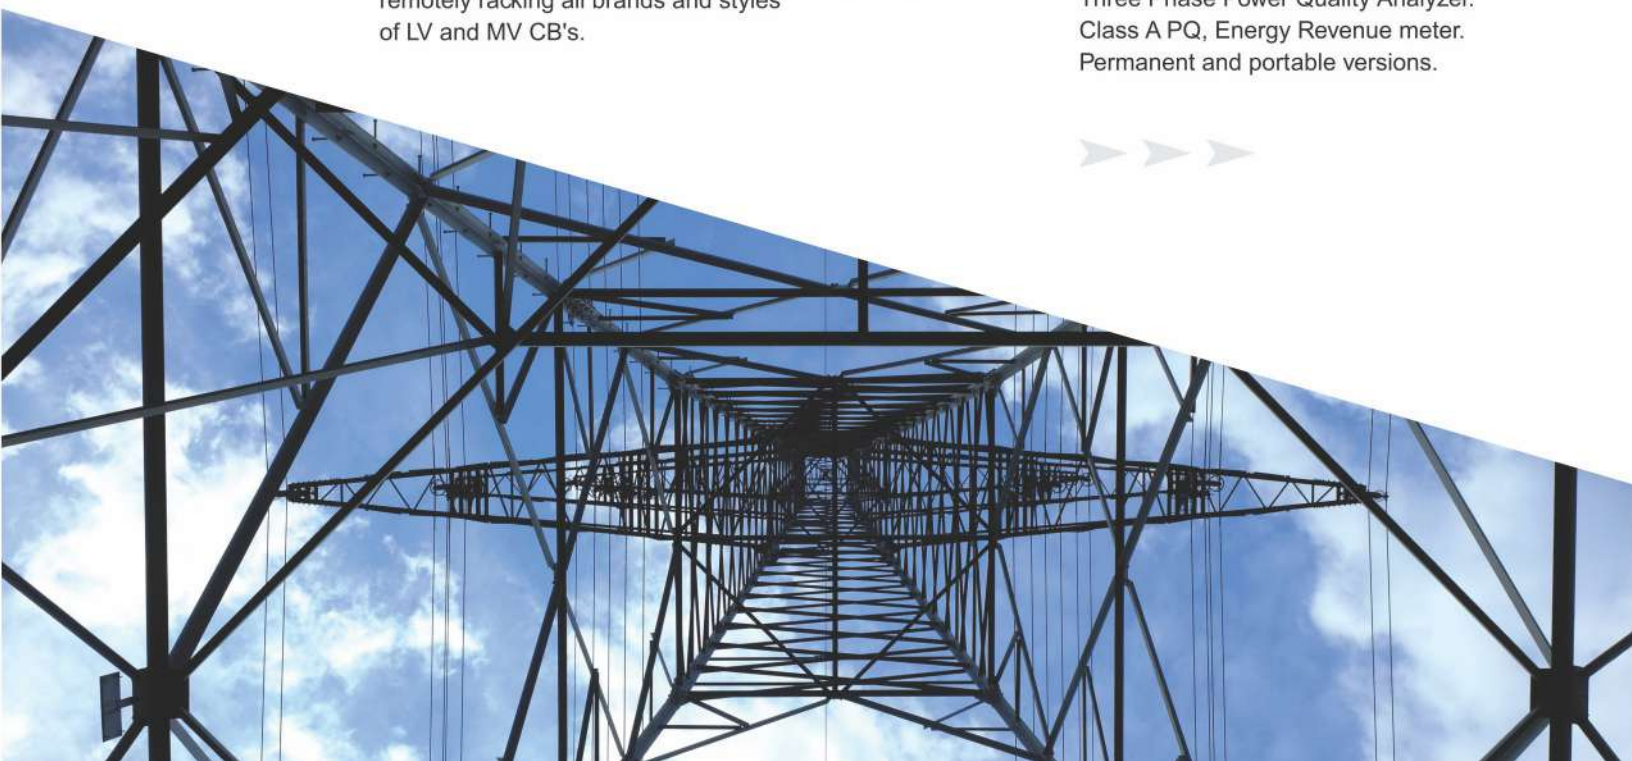

**EA Technology** Worlds leading supplier of Partial Discharge (PD) Equipment. Portable PD Testing products for Switchgear, Cables and Substation gear. Permanent monitoring systems for switchgear and cables.

**MIRUS International manufactures** energy efficient, cost effective and reliable power quality products and services based on innovative engineering. Passive Harmonic Filters, Sine Wave Filters Auto-Transformer Harmonic filters for use with VFD's and ESP's.

**Power Sensors Ltd. Creators of the PQube3, the world's most advanced Three Phase Power Quality Analyzer.** Class A PQ, Energy Revenue meter. Permanent and portable versions.

# ELECTRICAL TEST EQUIPMENT

**DV Power** is a leading world-wide supplier of Substation Test Equipment for Circuit Breakers, Motors and Transformers.

**ISA / ALTANOVA** A world scale manufacturer of Electrical Test Equipment for Circuit Breakers, Transformers, Substation Batteries and more. Single and Three phase Relay Test sets for all types of protective equipment.

**I-Gard** is the leading supplier of High Resistance Grounding (HRG) Neutral Ground Resistance (NGR) and other Arc Flash mitigation systems. Helping Large Industrial and Commercial customers improve reliability and worker safety is their mission.

**Pfisterer** offers the most complete range of electrical cable terminations and splicing solutions for any voltage up to 550 KV. They offer a wide selection of industry leading connections for GIS, Transformers, and MV/HV Electrical Cable.

**BAUR** is a world leader in Cable Fault Locating and Cable testing products. BAUR also make Dielectric Oil testers for field use.

**Ofil's DayCor Corona Cameras** are used by reliability engineers to prevent & manage HV Electrical equipment failure. Include: bi-spectral UV-Visible cameras & UV imagers classified as (NDT) Non-Destructive Testing equipment.

**LD Cowley CSA Z32 test set** is specifically targeted at the testing of electrical outlets in Canadian Health Care Facilities as set out in CSA Z32-09 / Z32-15. The test set reduces the testing time needed and produces complete accurate results.

**Schneider Electric Energy Automation** product portfolio includes a full range of protection relays, SEPAM, MiCOM, and ECOFIT, as well as VAMP 321 arc flash protection systems. Also in the portfolio is the new Eesergy T300 Distribution Automation Solution.

**BriteSpot** is a real-time Fibre-Optic based temperature monitoring system for LV/MV Switchgear, Main Bus compartments, switchboard panels and more. 9 and 18 channel systems.

**H2O Control Products Moisture** control and anti-corrosion products used in the Power, Mining and Electrical industries. Their Transformer Breather Kit is a "Spin-on" filter for Power Transformer breathers. Eliminates the handling of bulk Silica Gel.
